SLIDE 30 -- What Would You Do?

Speaking Notes:

Walk students through the key idea on this slide and tie it to a real workplace situation. Key content: Click each scenario to reveal strategies for managing unexpected time Before you default to scrolling, ask yourself: "What is one thing on my Big Rocks list I keep putting off?" Use the Eisenhower Matrix — this time should go into the Schedule It quadrant. Batch small tasks, prep tomorrow's meals, make a phone call you've been avoiding, or simply rest intentionally. The key is a conscious choice, not a drift. Resist the urge to check your phone first. High performers use the first 20 minutes of the day for intention-setting — review your top 3 priorities for the day, do light movement, or spend time on something meaningful before the world demands your attention. Morning clarity rituals are one of the most powerful habits for time management.

DISCUSSION PROMPT

How does what would you do? connect to a situation you might face at work, school, or in daily life?

APPLICATION

SLIDE 35 -- Put It Into Practice

Section Title

Speaking Notes:

Transition into this section: Put It Into Practice. Preview why this topic matters and connect it back to the lesson objectives.

SLIDE 36 -- How Will You Put Your TIME to Use?

Speaking Notes:

How will you put your TIME to use today? Do a Round Robin - Post the Stand and Deliver questions. Each learner will print one of the questions on a blank sheet of paper. (If you have more than 5 learners, put them in groups. Adjust however you see fit, so it works with your class). Each group member must choose a different question. Learners pass their papers to the right. The next member writes his/her response to the question. They again pass their papers to the right. The next person writes his/her response. Repeat until the learners receive their original paper. They read all the responses and write summaries of what they have learned. Facilitate a whole-class discussion in which learners read some of their summaries. Stand and Deliver Questions:1. What are the most important concepts you learned from this module?2. How will you use this information?3. What other steps can you take to learn more about this topic?4. With whom can you share what you've learned and what would you tell him or her?5.
